Despite suffering domestic out-migration, Pine Co. welcomed net international in-migration - gaining new Minnesotans from foreign countries (see Table 2).

### LABOR FORCE TRENDS

At 7.8%, Pine Co. had a higher unemployment rate than the state in 2020. Due to the pandemic recession Pine Co.'s unemployment rate increased compared to 5.7% in 2019, but was lower than the 9.8% rate posted in 2010. The number of unemployed workers actively seeking work in Pine Co. increased over the past year, and is down compared to 2010.

Source: DEED Local Area Unemployment Statistics

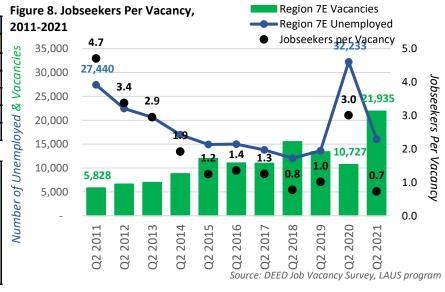

Labor force growth has slowed in recent years. After experiencing a net gain of 422.5 workers each year from 1990 to 2000, Pine Co. averaged an annual gain of 189.9 new workers from 2000 to 2010, and most recently a loss of -37.5 fewer workers since 2010 (see Figure 7). Moving forward, Pine Co. is expected to see a labor force decline from 2023 to 2033 (see Table 6).

The labor market had grown extremely tight in recent years, with less than 1 jobseeker per vacancy until the pandemic recession intervened in early 2020 and the number of unemployed workers spiked. However, by the second quarter of 2021, job vacancies in Central reached new highs, quickly bringing back challenges in finding new workers (see Figure 8).

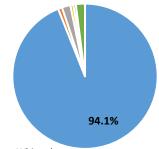

# LABOR FORCE CHARACTERISTICS

Pine Co. had a lower labor force participation rate than the state. The labor force in Pine Co. is less racially diverse than the state (where 84.8% of workers are white alone), but is becoming more diverse over time.
